

Park Avenue Gaming

Job Description

Are you an experienced CTO (Chief Technology Officer) looking for a new challenge and an opportunity to advance your skills and career in a great working environment? If you are a strategic thinker, an effective communicator and an expert in technological development as well as ambitious, multitasking go-getter able to thrive in the fast-paced environment, we have the perfect job for you!

Reporting to the CEO and based in Alpharetta, Georgia, Park Avenue Gaming is looking for a CTO to be our first technology go-to expert and play an integral role in setting the company's strategic direction, development and future growth. In this position, you will oversee our overall technology development and technology utilization plan and manage all information technology resources of our company. This is a unique and pivotal opportunity to contribute as the Company continues to grow in the lottery arena.

Responsibilities:

As CTO for Park Avenue Gaming, you will be in charge of:

- Leading the strategy for technology platforms, partnerships and external relationships
- Representing the technological agenda in staff meetings and when making hiring decisions
- Identifying, comparing, selecting and implementing technology solutions to meet current and future needs
- Creating timelines for the development and deployment of all technological services.
- Acting as a mentor to team members.
- Developing, tracking and controlling the development of annual operating and capital budgets for purchasing, staffing and operations
- Managing and optimizing infrastructure assets to satisfy internal financial targets
- Creating overall technology standards and practices and ensure adherence
- Consolidating our technology platforms and create plans for each
- Tracking, analyzing and monitoring technology performance metrics
- Overseeing all system design and changes in system architecture
- Keeping abreast of new trends and best practices in the technology landscape
- Taking the initiative in thought leadership, innovation and creativity
- Working closely with Marketing, Business Development and Operations to define and deliver new products and enhancements
- Maintaining a consumer-focused outlook and aiding in the delivering of IT projects to market.
- Assisting in recruitment, onboarding and training of IT managers
- Ensuring all technology practices adhere to regulatory standards.
